

SMB-2D

Features:

- Simple and easy to install
- Compact, aesthetic design
- Cable entry from Multiple directions
- Multiple Mounting Options

Description:

Uniquely designed 2 Port Surface Mount Box, not only fits our range of keystone jack but also compatible with most keystone jacks on the market. The neat appearance makes a great match with any surface. Different methods of mounting are available: adhesive, screw, and magnet. An innovatively simple, but reliable dust cover solution protects the jack when unplugged. Multiple direction cable entry, by break-off technique on the wall of top cover, is available for adapting to any installation requirement. Port Identification can be done by station ID labeling or icon. Standard color is white, but can be customized colors.
